

Rolling Bench Seedbed 4x8

Ebb-and-flow rolling bench / nursery bed

Specifications

SPECTRUM	n/a - ebb & flow bench
COVERAGE	Widths 4 / 5 / 5.5 / 6 ft (1.22 / 1.53 / 1.69 / 1.78 m); any length to order
DIMENSIONS	Stock model 4 x 8 ft (1.22 x 2.44 m)

Key features

- Stock 4ft x 8ft (1.22 x 2.44m) available from inventory; widths of 4ft, 5ft, 5.5ft and 6ft and any length built to order.
- Ebb-and-flow irrigation — the bench floods and drains rather than watering plant by plant, so every position on the tray sees the same feed.
- Materials specified throughout: ABS tray, 6063-T5 aluminium profile frame, hot-dip galvanised steel cross beams, stands, wheel beams, diagonal ligaments and feet, ABS corner brackets, bakelite steering wheel, nylon anti-tip bracket.
- Rolling on a hand wheel, with an anti-tip bracket and anti-clamp hardware as standard.
- Extended frame option for mounting a lighting system directly over the bench.
- Stackable in propagation, seeding and growth-chamber areas.
- Complete accessory set: tray, supporting frame, cross brace, aluminium border, water inlet and outlet, hand wheel, rolling bracket pipe and anti-clamp.
